CANA - PROUD SUPPORTER OF THE CCA AT THEIR ANNUAL CONSTRUCTION CAREER EXPO

Calgary, Alta. - April 24, 2015 - CANA Group was thrilled to be part of the annual Construction Career Expo hosted by the Calgary Construction Association (CCA), which took place April 22 at the BMO Centre, downtown Calgary. Being an avid supporter of the CCA in its endeavors to grow and strengthen Calgary's construction industry, CANA volunteers spent the day engaging with students and getting them excited about a possible future in commercial construction.

At the Expo, CANA hosted its own exhibit where our dedicated volunteers talked to students and engaged them in CANA's own formwork display, which the students had an opportunity to learn about in a hands-on environment.

Nearly 3000 high school students from all over the city attended the event where construction industry leaders marketed the industry and their companies to the Calgary youth. Students had an opportunity to spend the day learning about construction in Calgary, actively contributing to building doghouses, and participating in various hands-on activities such as: masonry work, painting, roofing, testing of a variety of drills, concrete pouring and much more.

For many years CANA has participated in various tradeshow and educational events and are proud to be an active member in the Calgary community. For over 70 years CANA has followed a think straight, talk straight, do it right once approach with no surprises. Our divisions, including Construction, Utilities, High Voltage and Development share the same underlying principles and approach.
